

Toyota Smartphone Integration

ALWAYS A
BETTER WAY

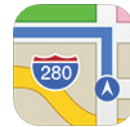

A smarter, safer way to use your iPhone in the car.

Take/place handsfree calls
via Bluetooth

Send/receive messages
via voice commands

Get Apple Maps, Google Maps or Waze
in your car's display

Enjoy music
iTunes, Podcasts, Spotify, Audiobooks and more

WHAT YOU NEED TO KNOW

Phone requirements:

- iPhone 5 and above, running latest iOS
- Connected to car's multimedia system via certified USB cable
- CarPlay uses your phone's data

It's all about safety:

- You should not use your phone when it's plugged in
- Apple determines which apps and functionality are allowed during driving

SET UP IN 4 EASY STEPS

- 1 Activate Siri**
Siri is active by default (or reactivate in Settings)

- 2 Connect USB**
Plug phone in to multimedia system

- 3 Activate CarPlay**
Sync your phone with the car in Settings

- 4 Select App**
Open CarPlay on your car's multimedia screen

HOW TO USE

Touch the screen or just say 'Hey Siri' (recommended)

'Hey Siri, call John Smith'

'Hey Siri, let's go home'

'Hey Siri, what is playing now?'

'Hey Siri, text my boss I will be late'

'Hey Siri, play Final Countdown'

'Hey Siri, open podcasts'

Tip: Ask Siri for weather, POI, fuel stations, supermarkets, restaurants or even to set calendar reminders
